.....

Diane Holland is the Administrative Coordinator for Texas A&M Technology Commercialization (TTC). She brings over thirty-five years of administrative experience to the TTC. In her position she handles not only the calendars and travel for the executive director, but also provides administrative oversight of the entire office. She assists with compiling System policy mandated reports, plans and coordinates the TTCs annual patent event, manages the agreement routing process and tracks the related obligations, trains administrative employees, and serves as the building, equipment, and supplies coordinator for the office.

Diane and her husband Jim previously owned and operated Holland Cattle Company in Comanche, Texas. The business was a cattle feed yard with a capacity of 5000 head. Diane was responsible for accounts receivable and payables, feed and medicine inventory, and reports to government agencies, as well as helping her husband with the daily activities regarding the health and nutrition of the cattle. Diane served on the Texas A&M University Systems United Way Campaign as the TTC representative in 2010 and as the TTC representative on staff council for 2 years. TTC is fortunate to have Diane working in the office for 10 + years.
